	<b><u>Comment and evaluation of IT teachers:</u></b> <i>Needless to say that your classmates love you because of your helpfulness towards them. We see your big passion in IT field. You are on the right track. Please keep your high motivation and your kindness in next semesters.</i>						

English	General English 1	120	6	<b>7.8</b>	9.3	5.7	7.6
	<b><u>Comment and evaluation of English teachers:</u></b> <i>I was really satisfied with your good attitude. You have shown your best effort in learning English, especially listening skills. Sometimes, you concerned about the balance with other friends, it was not important. The most important is that you feel better after you finish your study. I think you can study English much better if you keep going. You also showed your responsibilities in teamwork because you gave the ideas and instructed your friends what they needed to do, which made me convinced. Here are some suggestions:</i> 1. Writing a diary and reading it everyday to practise speaking and writing. 2. Recording what you had said and listening again to check your pronunciation.						

Soft skills	Learning to learn	60	2	<b>8.1</b>	8.9	5.6	7.7
	Professional Life Training 1	30	2	<b>8.1</b>	9.0	7.1	8.5
	<b><u>Comment and evaluation of PLT teacher:</u></b> <i>since the beginning of the semester, you have have been a responsible and nice student. however, I hope you can interact more with your classmates.</i> <i>For Learning to Learn, I would love you to practice more with searching and researching information. You can review the tips for quick searching, apply reading skill when reading information (scanning/skimming), think carefully when researching information. I know that this takes much time to improve but as long as you put great efforts, you can do it.</i> <i>For PLT1, to be honest, I was not very satisfied with what you have done at the beginning of the email writing module. It seemed like you were not careful enough and sometimes made silly mistakes. However, later on, I could see you make good progress by improving a lot: understand the format of an email and tools to use in compose box of Gmail, can write a request email in an appropriate way. And the same thing happens with the Presentation module. Well done</i>						
	Education training 1	60	2	<b>8.6</b>	8.7	6.5	7.7
	<b><u>Comment and evaluation of Educators:</u></b> <i>You are smart and have good potential. You should be more active in class and participate more in activity.</i>
